COURSE OVERVIEW

The Bachelor of Business (BBus) is TIIS's flagship undergraduate program — a 24-unit, three-year degree designed on a distinctive 8/8/8 architecture: eight Common Core Units shared across all streams, eight Stream-Specific Units providing deep disciplinary specialisation, and eight Elective and Capstone Units integrating professional practice, research capability, and industry engagement in the final year.

The BBus is offered across three specialisation streams: Management, Marketing, and Accounting. Each stream has a clearly defined disciplinary identity supported by purpose-built units, explicit prerequisite scaffolding, and a stream-specific or shared Capstone project. The Accounting stream is designed to meet the CPA Australia and CA ANZ professional pathway requirements.

The program has demonstrated strong growth since its 2022 launch: enrolments have grown from 22 students in 2022 to 85 new students in 2025 across Sydney and Melbourne campuses — a 286% increase. The first cohort completions emerged in 2025, confirming successful progression through the full three-year program structure.

PROPOSED 8/8/8 COURSE STRUCTURE

The BBus is structured across three distinct tiers. All students complete the same 8 Core Units, providing a shared interdisciplinary business foundation. Students then select one of three streams for their 8-unit specialisation. In the final year, students complete 8 units of electives and a stream-specific or shared Capstone project.

Tier 3 — Electives & Capstone (8 units, Year 3)

The Tier 3 Elective and Capstone tier provides students with flexibility to broaden their learning across streams or deepen their chosen specialisation. All students complete the shared Business Research Capstone Subject (BB305) or, in the Accounting stream, an Accounting Portfolio Capstone. Remaining Tier 3 units are drawn from the TIIS Elective Bank (subject to prerequisites) or additional stream units.

Business Research: Capstone Subject (BB305)
BB305 is a shared Capstone unit applicable across all three streams. It requires students to independently conduct a research or strategic project with industry-connected deliverables, demonstrating synthesis of prior learning and graduate-level professional practice. In the Accounting stream, an Accounting Portfolio Capstone provides a dedicated professional practice integration experience aligned to CPA Australia and CA ANZ pathway requirements. Both capstone options address CLO7 (Research) and CLO8 (Self-Management) as primary assessment vehicles.

SCAFFOLDING & PREREQUISITES

The BBus employs progressive knowledge scaffolding across the three years. Year 1 core units have no prerequisites, enabling all students to commence study with equal access. Stream units in Years 2 and 3 require satisfactory completion of foundational core units before entry, ensuring students possess the necessary disciplinary knowledge before progressing to specialist content.
