COURSE OVERVIEW

The TIIS Master of Business Administration (MBA) is a 16-unit AQF Level 9 qualification that develops senior management capability, strategic leadership, and applied professional judgement. The program balances rigorous academic foundations with real-world professional application, preparing graduates to lead complex organisations across diverse industries and global contexts.

The restructured MBA (2026) features a streamlined 10-unit core, a Business Capstone, and a five-unit specialisation chosen from three defined streams — Accounting, Marketing & Entrepreneurship, and Cyber Security — with a fourth Undefined Specialisation enabling rapid institutional response to emerging industry needs. A General MBA option allows students to draw electives across streams for a broader, cross-disciplinary qualification.

The MBA commenced in Sydney in 2022 and expanded to Melbourne in 2024. By 2025, total enrolments reached 176 students across both campuses, with attrition declining from 49.4% (2022) to 16.5% (2024) — reflecting a program that has matured rapidly into a stable, well-supported postgraduate offering.
