KEY INFORMATION

Award	Master of Cyber Security (MCS)
AQF Level	Level 9 (Masters by Coursework)
Nested Exit	Graduate Certificate in Information Technology (GCIT) — on completion of Section 1 (4 units)
CRICOS Code	TBA — application in progress
Total Units	16 units — 96 credit points
Duration	2 years full-time | Up to 4 years part-time (domestic) | 1 yr 8 months with eligible CPL
Delivery	Online & On-Campus — Block Mode (6 blocks/year × 6–7 weeks)
Campus	Sydney (Ultimo) — 13–15 Smail Street, Ultimo NSW 2007, Australia
Intakes	Block 1: March | Block 3: July | Block 5: November
Fees	$2,700 per subject | $8,100 per trimester (3 units) | $43,700 total (incl. $500 enrolment)
Accreditation	TEQSA Registered Provider PRV14085 | ACS accreditation (to be confirmed after first delivery cycle)
Scholarships	Available for women and underrepresented groups — enquire at info@tiis.edu.au

COURSE OVERVIEW

The TIIS Master of Cyber Security (MCS) equips graduates with specialised technical and management knowledge to design, develop, and manage cyber security systems across complex organisational environments. The program addresses the full cyber security lifecycle — from governance and risk management through threat modelling, incident response, secure software development, digital forensics, and security engineering.

A distinctive feature of the MCS is its dual technical-management curriculum. Students develop deep cyber security expertise alongside business administration and leadership knowledge, producing graduates who can operate effectively at both technical implementation and senior strategic levels. Industry experience is integral to the program — the Cyber Security Internship capstone option requires students to work on-site with an approved partner organisation during their final trimester.

TIIS actively supports diversity in the cyber security profession through targeted scholarships for women and students from underrepresented backgrounds.

COURSE STRUCTURE

The MCS comprises 16 units across five sections. Students from IT or management backgrounds may apply for Credit for Prior Learning (CPL) of up to 24 credit points (Section 1) or 18 credit points (Section 2), potentially reducing the course duration by up to two trimesters.

Subject Code	Subject Title
Section 1 — Foundation Information Technology (4 units — compulsory or eligible for CPL)	
MCS501	Programming Principles
MCS502	Introduction to Cyber and Network Security
MCS503	Web and Database Systems
MCS504	Software Development Methodologies [Co-requisite: MCS501]
Subject Code	**Subject Title**
Section 2 — Business Administration (choose 3 from 4 — or eligible for CPL)	
MBA603	Management, Leadership and Ethics
MBA607	Strategic Business Management [Prerequisite: MBA603]
MBA608	Innovation and Entrepreneurship
MBA612	Enterprise Design and Value Creation [Prerequisite: MBA608]
Subject Code	**Subject Title**
Section 3 — Core Cyber Security (6 units — all compulsory)	
MCS601	Cyber Security Risk Management, Governance and Regulation

Subject Code	Subject Title
MCS602	Human Factors in Cyber Security
MCS603	Secure Software Development [Prerequisites: MCS501 + MCS504]
MCS604	Cyber Security Incident Management [Prerequisite: MCS601]
MCS606	Threat Modelling [Prerequisites: IT foundation units + MCS601]
MCS608	Security Engineering [Prerequisites: IT foundation units + MCS601]
Subject Code	**Subject Title**
Section 4 — Cyber Security Electives (choose 2 from 4)	
MCS605	Malware and Attack Technologies [Prerequisite: MCS603]
MCS607	Authentication, Authorisation and Accountability [Prerequisites: IT foundation + MCS601]
MCS611	Digital Forensics [Prerequisites: IT foundation + MCS601 + MCS604]
MCS612	Ethical Hacking [Prerequisites: IT foundation + MCS601 + MCS603]
Subject Code	**Subject Title**
Section 5 — Capstone (choose 1)	
MCS609	Cyber Security Internship [Restricted: final trimester, cumulative average ≥70%, no academic misconduct, pre-placement activities completed]
MCS610	Cyber Security Project [Industry-based projects subject to same eligibility criteria as MCS609]

Graduate Certificate in Information Technology (GCIT) — Alternate Exit

Students who complete Section 1 (the four Foundation Information Technology units) and choose to exit early may be awarded the Graduate Certificate in Information Technology (GCIT) as a standalone AQF Level 8 qualification. Conversely, students who hold a GCIT may enter the MCS with Section 1 credited, reducing the total program duration. This nested structure provides clear and flexible entry and exit pathways for students at different stages of their IT career.

CREDIT FOR PRIOR LEARNING (CPL)

IT Background (AQF 7+ in IT, IS, Computer Science, or Engineering)	24 CP credit — Section 1 waived — course duration reduces to 1 year 8 months full-time
Management Background (AQF 7+ in management-related field)	18 CP credit — Section 2 (3 units) waived — course duration reduces to 1 year 8 months full-time
Any Bachelor Degree (AQF 7+ in any field)	No CPL — full 96 credit point program — 2 years full-time

CPL is granted in accordance with the TIIS Credit for Prior Learning Policy. Students wishing to apply for CPL must do so at the time of application and provide evidence of prior qualifications. CPL may also be considered on a case-by-case basis for students with substantial relevant professional experience.

DELIVERY MODE & BLOCK STRUCTURE

Block Mode Delivery — Online & On-Campus

TIIS delivers all programs in Block Mode: six intensive teaching blocks per academic year, each spanning 6–7 weeks. This structured format maximises student engagement, supports deep learning, and accommodates the needs of working professionals and international students alike. Online and on-campus modes maintain full curriculum, assessment, and outcome equivalence in accordance with HESF Standard 3.2.

Delivery Modes	Online (synchronous + asynchronous) and On-Campus — Sydney & Melbourne
Block Structure	6 blocks per academic year × 6–7 weeks per block
Units per Block	2 units (full-time); 1 unit (part-time, domestic students only)
Contact Hours	3 hours synchronous per subject per week (live online or face-to-face)
Self-Directed Study	7 hours per subject per week, plus 10 hours per final assessment task
Online Platform	Moodle LMS — live lectures, lecture recordings, discussion forums, digital resources
Sydney Campus	13–15 Smail Street, Ultimo NSW 2007, Australia
Melbourne Campus	Details available at www.tiis.edu.au
International Students	Must comply with visa conditions regarding study load and mode of enrolment

Online delivery utilises synchronous video conferencing with lecture recordings provided for flexible review. Assessment standards, learning outcomes, moderation processes, and academic support services are fully equivalent across all delivery modes. The online learning environment is hosted on Moodle and is accessible 24/7 from any location.

ADMISSIONS

Academic Entry Requirements

A bachelor degree (AQF Level 7) or higher from a recognised institution in any field is required for the standard 96 credit point pathway. Applicants with IT-related or management-related undergraduate degrees are eligible to apply for Credit for Prior Learning as described above. Alternative admission arrangements for applicants with substantial relevant professional cyber security experience are available under Section 5 of the Student Selection and Admissions Policy.

English Language Requirements

IELTS 6.5 overall with no individual band below 6.0, or recognised equivalent. Other accepted pathways include: completion of a recognised ELICOS certificate at equivalent level; completion of a bachelor degree taught in English within the past two years; or five or more continuous years of study or work in an English-speaking environment.

Technology Requirements

Students require a modern computer with at least 16GB RAM (32GB recommended), 256GB available hard disk space (512GB recommended), a minimum of 8 CPU cores (16 recommended), and 1920×1080 screen resolution. Some software components are Windows-only; MacBook users will need to install virtualisation software. All course software is either free to download or provided by TIIS.

COURSE LEARNING OUTCOMES (AQF LEVEL 9)

Subject Code	Subject Title
CLO 1	Apply foundation, core, and advanced cyber security knowledge to design, develop, implement, and manage secure systems and processes of industry standard, responsive to the evolving threat landscape
CLO 2	Examine the cyber security body of knowledge and critically evaluate practices to inform the design and development of technical and creative solutions to cyber security challenges aligned with organisational strategy
CLO 3	Critically evaluate the impacts of ethical, regulatory, and governance issues in cyber security from personal, organisational, and global perspectives
CLO 4	Work independently, collaboratively, and reflectively to develop technical and creative solutions to complex cyber security problems
CLO 5	Communicate effectively with and manage a wide range of technical and non-technical stakeholders in cyber security design, implementation, and management contexts
CLO 6	Develop professional practice in cyber security through synthesis and innovative application of knowledge and skills in an independent or collaborative, evidence-based, industry-relevant project or internship

CAREERS & EMPLOYMENT OUTCOMES

The Australian cyber security sector is among the fastest-growing in the nation. MCS graduates pursue specialist roles including:

- Cyber Threat Analyst / Threat Intelligence Analyst
- Intrusion Analyst / Security Operations Centre (SOC) Analyst
- Malware Analyst / Reverse Engineer
- Incident Responder / Incident Response Manager
- Cyber Operations Coordinator
- Penetration Tester / Red Team Specialist
- Vulnerability Assessor / Vulnerability Researcher
- Cyber Security Adviser / Assessor / Consultant
- Security Engineer / Cloud Security Architect

Graduates may be required to obtain additional industry certifications (e.g., CISSP, CEH, CompTIA Security+, CISM) depending on target role and employer requirements.

REGULATORY COMPLIANCE

TEQSA / HESF (Threshold Standards) 2021 — Regulatory Compliance

This program is registered with the Tertiary Education Quality and Standards Agency (TEQSA) under the Higher Education Standards Framework (Threshold Standards) 2021. Curriculum design, delivery modes, assessment practices, student support mechanisms, and quality assurance processes are designed to meet applicable HESF Standards including Standard 1 (Student Participation and Attainment), Standard 3 (Teaching), Standard 5 (Institutional Quality Assurance), and Standard 6 (Governance). The AQF level and volume of learning for this qualification comply with the Australian Qualifications Framework (Second Edition, 2013). Provider No: PRV14085.
